

## AIR & OCEAN – INTERNATIONAL TRANSPORTATION AND SHIPPING SOLUTIONS VIA AIR AND SEA FREIGHT

*With Air & Ocean, we can create tailor-made international transportation and logistics solutions for your imports and exports, including third party and third country deliveries. We work with selected airlines and shipping companies all over the world, and Air & Ocean is part of the global World Freight Alliance (WFA) network, which operates in around a hundred countries and on every continent. Air & Ocean complements our standard services, ensuring that we can meet your specific needs and wishes for every delivery.*

### **Collection, delivery and distribution**

Every transportation commission is based on your requirements and wishes, and on the nature of the goods. Together, we choose the optimum solution for each consignment.

### **Examples of solutions**

Through Posten Logistik's cooperation with its partners and various networks, Air & Ocean gives you a single interface for the entire transport flow, from manufacturer to end-user. Examples of solutions include:

#### **Assembly service**

Shipments from a number of different suppliers are combined into a single shipment from the country of origin to the recipient.

#### **Country of departure – end-recipient direct**

Distribution solutions whereby we label the goods in the country of departure for delivery to the end-recipient. The goods are sent in an unbroken chain direct to the end-recipient/the importer's customer.

#### **Third party/third country deliveries**

Example: A company in Sweden manufactures goods in one country and sells these to a customer in a third country, but pays the freight costs in Sweden.

#### **Combination solutions**

Transportation commissions where a number of other Posten Group services are included as part of the overall solution. This may also include road transport and express solutions as a complement to air and/or sea freight.

### **Pricing**

#### *Air freight*

The price is calculated per kilogram depending on the weight and volume of the shipment, plus any surcharges including local transportation and handling costs. The latter can be reported separately or included in the door-to-door price.

#### *Sea freight*

##### **Full container load (FCL)**

The price is calculated per container, plus any surcharges including local transportation and handling costs. The latter can be reported separately or included in the door-to-door price per container.

##### **Less than container load (LCL)**

The price is calculated per tonne or cubic metre (W/D weight/dimensions), plus any surcharges including local transportation and handling costs. The latter can be reported separately or included in the door-to-door price.

#### *Contents*

There are no actual restrictions on which goods can be sent, other than the capacity of the means of transport and restrictions due to laws and regulations.

Dangerous goods must be packed, documented and handled in accordance with regulations for the means of transport in question. You can find information about what is classified as dangerous goods at [srv.se](http://srv.se).

If you have any other questions about contents and dangerous goods, please contact one of our Air & Ocean offices at Arlanda Airport or Landvetter Airport.

## Customs documentation

Full information about export documentation is available in The Shipping Guide, which is issued by the Swedish Trade Council, telephone +46 (0)8 588 660 00 or [www.swedishtrade.se](http://www.swedishtrade.se). Information and advice can also be found at [posten.se/tullinfo](http://posten.se/tullinfo).

If your company imports goods regularly, we recommend that you apply for customs credit and register with Swedish Customs in order to simplify and speed up the customs process.

If you have any other questions about customs procedures, please contact one of our Air & Ocean offices at Arlanda Airport or Landvetter Airport.

## Liability

For further information, see Special terms and conditions for Air & Ocean, Posten's General Terms and Conditions for Commercial Clients (PAKN), and the Nordic Association of Freight Forwarders' General Conditions (NSAB 2000) at [posten.se/kundvillkor](http://posten.se/kundvillkor).

### *Supplementary insurance*

You can take out supplementary goods insurance via Posten Logistik. This covers all types of permitted items and types of goods, apart from goods that are already damaged or second-hand.

You can take out this insurance via one of our Air & Ocean offices at Arlanda Airport or Landvetter Airport.

## Other

We can also deal with order management. You can have statistics about your transportation commissions and all services detailed on a collective invoice.

## Certifications

Our business systems have been certified by Bureau Veritas Certification Sverige AB, and meet the requirements of ISO 9001:2000 and ISO 14001:2004.
